

# Structural Steel Project Profile

## Residential Building Frames

### *Fordham University Dormitories Bronx, NY*

Founded in 1841, Fordham University is the Jesuit University of New York, offering exceptional education distinguished by the Jesuit tradition. Fordham University enrolls 15,189 students in 10 schools. Of the 8,427 undergraduates, 4,096 live in University-managed housing. There are 6,762 graduate and professional students, of whom 225 live in University-managed housing.

Fordham increased their student housing in 2008, with two new seven-story residence halls at their Rose Hill campus. The new buildings encompassed a total of 166,000 square feet, to house 460 sophomores and juniors. Living spaces were split into four and six-person suites.

Each of the new halls was composed of two towers joined at the base. The larger of the two, Campbell Hall, was named in recognition of Robert E. Campbell and wife, Joan M. Campbell, whose \$10 million gift to Fordham is among the largest in Fordham history.

Ocean Steel delivered 1300 tons of structural steel to Gotham Construction for the dormitories. The architects, Sasaki Associates, designed the buildings to both blend into the Gothic nature of the campus and obtain LEED certification.

**Tonnage: 1300**  
**Customer: Gotham Construction**  
**Owner: Fordham University**  
**Structural Engineer: Lemessurier Associates**  
**Year: 2008**
