

Structural Steel Project Profile

Industrial Building Frames

State Renaissance Court Brooklyn, New York

Tonnage: 1366
Customer: Strategic Development & Construction Group
Owner: State Renaissance, LLC
Structural Engineer: Wexler & Associates
Year: 2006

Located above the Hoyt-Schermerhorn subway station in Brooklyn, NY this 61,000 square foot mixed-use structure was required to be structurally isolated from the subway structure. This was accomplished using 256 isolator assemblies at the basement steel supports. Support girders were then erected atop the isolators, and the superstructure erected above. For further information see http://newyork.construction.com/features/archive/2006/10_feature5.asp

OSCO Ocean Steel

CORP. OFFICE & NB PLANT #1:
